Title: Freedom Planet - Official Soundtrack
Genre: Action, Indie
Developer:
GalaxyTrail
Release Date: 21 Jul, 2014

English

freedom planet soundtrack download. freedom planet official soundtrack. freedom planet soundtrack free download

Ever wonder what it'd be like if a Sonic Fanfic came to life, but instead of being a terrible Fanfic, it was god tier, contained original characters, and had such juicily awesome game mechanics and level design that you could truly begin to believe in love after love? (After love. After love. After love.) I won't spoil the surprise, but suffice it to say, even without the storylines, the three main playable characters are so perfectly different in play style that each time you play through as a character, it feels like a different game. Some of the bosses that challenged you will be a breeze, some that were a breeze, become major threats. Alternate paths, character exclusive levels, Time challenge modes with special levels just to hone your speed running skills. Did I mention an epic soundtrack? Cause yeah, they got you covered. It's not just good era style music. It's plain out, good music. The only flaw some people have is subjective: Some people can't stand the voice acting. I for one, after playing through the game twice on adventure mode, feel that the voice acting fits each character perfectly: Even if the characters themselves may sound annoying, or even silly in some cases. it usually comes through as intended. The one voice I will say is truly excellent, is that of the main Antagonist, and with some of his taunting near the end, I grew to love and hate hearing his voice over the intercom just as much as I loved and hated Handsome Jack. Buy this game. Buy it for your friends. Buy it for your enemies to turn them into your friends. Buy extra copies on humble bundle just to have it DRM Free. Make sure these Devs know that they did an awesome job.. Before reading, please consider this: I would wholeheartedly recommend this soundtrack if they fixed the misleading discription. This soundtrack was one of the main reasons I decided to purchase the game in the first place and I think

they did an excellent job on it. ALSO: If you don't understand what I mean by "audio quality" and "kbps" then you should look it up and enlighten yourself, don't down-vote this review for helpfulness because this isn't about opinion. Now here is the problem: The description says that the soundtrack includes "every song in the game at 320kbps CD quality." These are all the songs that do not meet the advertised quality of "320kbps" Target World (Shang Mu Academy) -----128kbps Up the Creek (Jade Creek 1) -----256kbps Up the Sub (Jade Creek 2) -----256kbps Pangu Lagoon 1 (English) -----128kbps Pangu Lagoon 1 (Japanese) -----128kbps Time Attack -----128kbps Relic Maze (Extended Mix) -----256kbps Freedom Planet Theme (Orchestral Remix) -----128kbps Beta Dragon Valley 1 -----128kbps Beta Minor Boss Battle -----128kbps Beta Speed Powerup -----128kbps Beta Title -----128kbps The information I am presenting you is FACT. These values were obtained from opening the sound files and reading the detected audio quality. The reason I have zero hours of playtime is simply because I use a different music player than the one on Steam. If they say this album is 320kbps, then ALL of the songs in it must be at least 320kbps. I will change my review to "recommended" as soon as either the sound quality or discription is fixed. P.S. If you want a better quality version, you can get it on Bandcamp for a few dollars more.. If you ever played Freedom Planet then you MUST have heard this music. It melts my ears (in positive way) everytime I hear it. Also you just can't skip those extras in this sountrack, all these beta soundtracks and thank-you music Woofie has made.. I love this soundtrack c:. My ears are in heaven when I listen to a piece of this soundtrack. So many fantastic tracks with this purchase. A lot of them are reminiscent of not only the classic Sonic games but also retro games in general. Definitely worth \$7.. How do I download this? I bought the DLC and the base game. Good game though.. Wonderful soundtrack, worth the \$6.99. waiting for horizon starport and warp sector 320kbps CD quality songs
